

Dinmukhamet Idrissov (Profile)

Ordabasy Group

Idrissov epitomises a group of Kazakh entrepreneurs who have gained commercial prominence through a degree of political exposure – either by occupying government positions themselves, and/or by allowing their professional development to be somewhat guided by more prominent elite figures. Recently ranked the 20th richest in Kazakhstan, there are indications that Idrissov is, in fact, a protégé of some of the country's more infamous figures. As a result, Idrissov has faced allegations of engaging in non-transparent business practices.
