

Yugoimport SDPR (Profile)

Defence Industry

This state-owned Serbian military company is historically rooted in the political project of the Socialist Yugoslavia, a project that has allowed Yugoimport to maintain key international contacts for weapons exports. Controlled by the Ministry of Defence, Yugoimport has been tied – on several occasions – to allegations of corruption, specifically with regards the personal benefit of directors and other associated individuals who are involved in weapons exports through the Ministry of Defence and other government bodies. Recent legislative proposals introduced the Serbian government could further increase the opacity levels of an already opaque defence industry, further exposing it to the political will of the ruling elite.
